Crime Advice – Protecting Your Possessions

Property Marking – There are many products which can be used to mark your property. These are often inexpensive and can help to deter thieves and aid in the recovery of property which is stolen

UV Pen Quick and cheap. Mark your postcode and house number on your possessions – this will show up under a UV light.

‘DNA’ Marking - There are a number of products you can buy which contain a unique code, like DNA. This code is registered to your address. They are usually clear liquids which can be painted onto your possessions.

Etching For large or outdoor objects, you may wish to etch your postcode into them using a special kit.

Photographs - If you have something unusual or rare, it's a good idea to take a photograph of it. Make sure the background is plain and shows off the item as best as possible. Include a ruler in the photograph for reference. A banknote or a coin for smaller objects can also provide a size comparison.

Keep a Record - Keep a note of serial numbers of large appliances and electrical goods. Register your belongings online at www.immobilise.com

Insurance - Lastly, if the worst does happen and you have your possessions stolen, make sure that you have adequate household insurance which will cover your loss.
